

RESTAURANT

Ideally - Forecast, what you will need for the next 4 days. Warm them from frozen in a 350°F oven for 20 minutes. Let cool, cover and hold in cooler. When ordered microwave for 30 seconds, or in the convection oven for 2 min.

Fast - Microwave, the goal here is to heat the apples without warming/melting the pastry. Use short blasts of 10 - 20 sec., no more than 40 seconds if the blossom is frozen

CATERING

Place up to 34 frozen Blossoms on a baking sheet in a 350°F preheated oven. Warm to an internal temperature of 100° - 120° F. (approx. 10 min.).

Blossom can be held in a warming box for 5 hours or more, (Dry heat only)

Blossoms can be thawed and warmed right in the warming box.

To Go

Warm Blossom from Frozen in an: Oven - toaster - Turbo Chef - heat lamp - hot plate - Warming box. Dry heat is what you need; the Blossom is already fully baked, once warm you can hold it warm for 5hrs +! The peel and eat nature of the Petals make it easy to eat from inside a bag,
